

Badger

Fire Protection

Wet Chemical

The fire fighting power and user friendly design of the Badger Wet Chemical portable extinguishers make them the ideal choice for commercial restaurant applications.

These stored pressure extinguishers are suitable for use on combustible cooking media and offer the very best in portable fire protection.

Available in two sizes, 1.59 gallons (6 litres) and 2½ gallons (9.43 liters), both meet the Class K test requirements and are designed to supplement pre-engineered restaurant suppression systems.

Features

- Available in two sizes, 6 litre and 2½ gallons
- Chrome plated brass valve
- Stainless steel cylinder, handle, lever & pull pin
- Incorporates non-metal finger guard for safer operation and protective nozzle orifice seal to prevent nozzle blockage
- Colour coded labels for instant type recognition
- Re-designed label incorporating easy to follow instructions and larger classification symbols

Class K
Symbol

Due to new and improved cooking appliances, higher heating rates and industry trends towards using more unsaturated oils, the potential for severe restaurant fires is greater than ever. The 1998 edition of NFPA-10 contains a new Class "K" extinguisher rating to specifically identify and address these commercial "combustible cooking media" fire hazards in kitchens.

ULC listed

Six year warranty

Wet Chemical photoluminescent identification sign

Available to assist with education and training in the use of extinguishers, Badger's glow in the dark signs provide 30 minutes of exceptional brightness during sudden power loss situations.

Fitted with user friendly discharge hose and nozzle

Features

- Size: 8 inch x 3 inch
- Meet ISO design criteria
- No servicing required
- Easy to install
- Contains symbols designed to be understood in all languages
